Dear Colin Hamilton:

This permit authorization for beachcombing cedar is valid from December 12, 2012 to December 31, 2013 and is subject to the following conditions:

- 1) Wood taken off the beach must not be merchantable. Wood 2.5m or longer and could be used in the manufacture of lumber is not to be taken.

You may not remove wood from:

- Private land
- Indian Reserves
- Ecological Reserves
- Above the high tide mark
- Federal, Provincial, Regional or Municipal Parks, or
- Foreshore leases

No right of access onto or through these lands and foreshore leases is given or implied by this permit. The onus is on the Permittee to determine the ownership of the foreshore. It is also the responsibility of the Permittee to obtain the consent of any land owner or lease holder for access.

You may only take timber of a low statutory log grade of beach worn quality. Do not take logs bearing a visible timber mark unless you have permission from the timber mark holder.

Failure to comply constitutes unauthorized harvest on Crown Land under Section 52(1)(a) of the *Forest and Range Practices Act* and may be subject to enforcement action under the Act. Unauthorized cutting may be subject to further prosecution under the *Criminal Code of Canada*. No merchantable quality logs may be bucked or taken.

A maximum of six (6) cords, approximately 21.7m³) of wood can be removed from the areas. The wood must be transported to the residence identified on your permit. Motorized vehicles are not to be used in the removal of timber from the foreshore.

Page 1 of 3

Persons engaging in wood cutting under this permit will assume all risk of loss or injury and save harmless the Crown from all and any claims.

Residual damage (such as sawdust or debris) resulting from the operation must be kept to a minimum. Special care must be used to prevent oil or grease pollution at the work site.

Please be respectful of local residents with regards to noise.

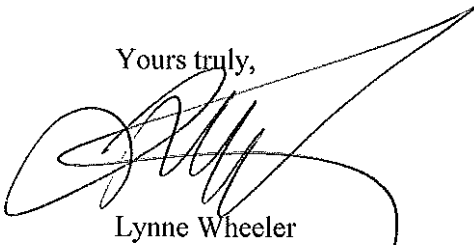

If any conditions set out in this permit are not performed, the District Manager or a Forest Officer may, without notice, suspend this permit, or cancel it, or both.

This permit covers the area of the South Island Forest District from the Gulf Islands as far north as Buckley Bay.

If you wish to salvage north of Buckley Bay you will require a permit from Campbell River District.

Thank you for your co-operation.

Yours truly,

A handwritten signature in black ink, appearing to read 'LW', with a long, sweeping flourish extending upwards and to the right.
